

GENERAL NOTES:

1. Consult **SFIA Technical Guide for Cold-Formed Steel Framing Products** for stud size, thickness, and spacing.
2. Consult **D112-13, AISI Brick Veneer Cold-Formed Steel Framing Design Guide**.
3. Consult with specialty structural engineer for curtain wall and floor design.
4. Gypsum panel type and thickness on curtain wall as required to meet design considerations.
5. Air/Water Barrier continuous from foundation to roof.
6. Continuous and stud cavity Insulation and to meet requirements of IECC or ASHRAE 90.1.

DISCLAIMER: This detail must not be used without a complete evaluation by the owner's design professional to verify validity of the design.
