

[American Institute of Architects](#)

Based in Washington, D.C., the AIA has been the leading professional membership association for licensed architects, emerging professionals, and allied partners since 1857.

[American Iron and Steel Institute](#)

AISI serves as the voice of the North American steel industry in the public policy arena and advances the case for steel in the marketplace as the preferred material of choice

[American Society for Testing and Metals](#)

ASTM International, formerly known as the American Society for Testing and Materials (ASTM), is a globally recognized leader in the development and delivery of international voluntary consensus standards.

[American Welding Society](#)

The American Welding Society (AWS) was founded in 1919 as a multifaceted, nonprofit organization with a goal to advance the science, technology and application of welding and related joining disciplines

Architectural Testing Inc.

Architectural Testing is nationally recognized for the leadership, dedication, and professionalism of its Executive Staff. Their diversity of knowledge, experience, and education is complemented by their absolute and mutual respect for each others' contributions to the company's success

[Association of Wall and Ceiling Industry](#)

AWCI represents 2,200 companies and organizations in the acoustics systems, ceiling systems, drywall systems, exterior insulation and finishing systems, fireproofing, flooring systems, insulation, and stucco contractors, suppliers and manufacturers and those in allied trades.

[DesignandBuildwithMetal.com](#)

DesignandBuildwithMetal.com, the Online Home of the Metal Construction Industry, is a news, information and education website devoted to cold-formed steel construction, metal roofing,

metal walls, metal building systems and related products. The website is updated daily and is complemented by a weekly email newsletter and monthly electronic magazine.

[Gypsum Association](#)

The Gypsum Association, a not-for-profit trade association founded in 1930, promotes the use of gypsum while advancing the development, growth, and general welfare of the gypsum industry in the United States and Canada on behalf of its member companies.

[Center for Cold-Formed Steel Structures](#)

The Center brings together the technical resources of interested parties, i.e., university researchers, steel producers, product manufacturers, consultants, building officials, government agencies, and others with a common goal of continued improvement of cold-formed steel design and construction

[Cold-Formed Steel Engineers Institute](#)

The CFSEI is made up of hundreds of structural engineers and other design professionals who are finding a better way to produce safe and efficient designs for commercial and residential structures with cold-formed steel

[Construction Specifications Institute](#)

The mission of CSI is to advance building information management and education of project teams to improve facility performance.

[International Code Council](#)

The International Code Council is a member-focused association. It is dedicated to developing model codes and standards used in the design, build and compliance process to construct safe, sustainable, affordable and resilient structures. Most U.S. communities and many global markets choose the International Codes.

[National Association of Home Builders](#)

NAHB is a trade association that helps promote the policies that make housing a national priority. Since 1942, NAHB has been serving its members, the housing industry, and the public at large.

[Steel Recycling Institute](#)

The Steel Recycling Institute (SRI) is an industry association that promotes and sustains the recycling of all steel products. The SRI educates the solid waste industry, government, business and ultimately the consumer about the benefits of steel's infinite recycling cycle.

[World Steel Association](#)

The World Steel Association (worldsteel) is one of the largest and most dynamic industry associations in the world. worldsteel represents approximately 170 steel producers (including 17 of the world's 20 largest steel companies), national and regional steel industry associations, and steel research institutes. worldsteel members represent around 85% of world steel production.
